PRESS RELEASE

PORTABLE RECLAIM SIFTER SAVES FLOUR, CUTS COSTS

American Fabric Filter Co., Wesley Chapel, FL, is proud to introduce our stainless steel portable reclaim sifter for sifting small batches of dry ingredients and reclaiming product normally lost through tailings. With the rising price of flour this can be an excellent way to cut costs. This versatile sifter is capable of batch sifting up to 600 pounds an hour and may be operated sitting atop a drum or using the optional adjustable rolling base for easy relocation around the plant. The all stainless steel construction and waterproof motor make cleaning simple. A custom RCN output dust chute allows quick changes between collection containers.
