## PORTABLE RECLAIM SIFTER W/ ROLLING BASE

AFF's new all **stainless steel** Portable Reclaim Sifter incorporates many innovations to make this your easiest and most efficient tool to sift small batches of dry product. It can be operated sitting on top of a heavy duty plastic container or 55 gal. drum, or using the optional adjustable rolling base. A variable force motor, counterweights, and oversized rubber vibration dampeners mean quiet operation. A custom RCN output dust chute allows easy changes between collection containers. One framed screen, the overs spout with sliding shut-off door, and two container shelves included. Additional framed screens and motor speed controller are available as options.

Waterproof 110V  
Vibrating Motor
