

American Fabric Filter Co.

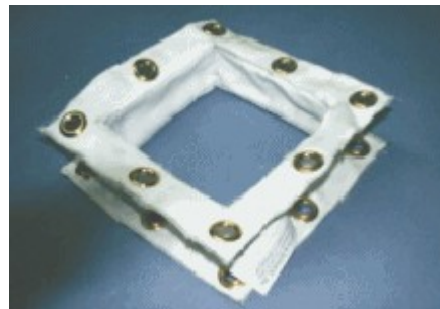

Your ultimate source for dust bags, screens and rubber products!

Connecting/Transfer & Load-Out Sleeves

Sleeves (open both ends)

In addition to filter/ breather sleeves, AMERICAN FABRIC FILTER CO. makes connecting / transfer sleeves to use to join movable equipment such as a vibrating sifter, to other equipment. Additionally, we specialize in designing and fabricating a very wide range of flexible, breathable and non-breathable connectors, and fabric-jacketed pressure sleeves. Today you may need a virtually weightless nylon satin connector for a load-out scale, and tomorrow it could be hard rubber pipes for transporting rocks. AFF can do it all.

We select fabrics (FDA-approved for food contact) for the best performance in your application. Each item is custom made for a precise fit, and we keep track of your designs for future orders.

Call, fax or e-mail us for a no-obligation evaluation of your equipment's performance and a free quote.
